

MEASURING YOUR FORKS TO ENSURE THE BEST FIT

How important is measuring your forks before ordering? VITAL! Taking the time to measure each component of the fork ensures you get exactly what YOU need. Follow our guide below before you place your order for Standard ITA Forks.

GENERAL INFORMATION

These questions help us determine if you are getting the most applicable type of forks for your standard requirements.

What is the make and model of the machine you are buying forks for?

What sort of loads are you typically moving with your machine?

Do you use pallets?

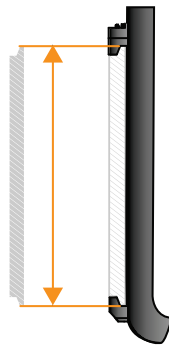

USE CARRIAGE MEASUREMENTS TO DETERMINE ITA CLASS

On the forklift carriage, measure the top of the bar to the bottom of the bar. Not sure which bar to measure? See our diagram for assistance.

ITA Class II = 16"

ITA Class III = 20"

ITA Class IV = 25"

Measure Carriage Bar Height

inside the clips on the backside of the forks as indicated by the arrows.

ITA Class

STANDARD DIMENSIONS

Pretty straightforward, measure the length of your fork, the thickness at the heel and the width of the fork.

Length

Thickness

Width

STEP 4

FORK TYPE AND TIP PREFERENCES

So many choices! Make sure you select an option for each question. **Circle your selection.**

Taper: Do you need standard taper, full taper or blunt/no taper on the edge of your forks?

Standard Taper

Full Taper

Blunt/No Taper

Finish: Do you need standard or polished forks? Which finish do you need:

Standard **or** Polished

Profile: Do you need the tip profile (as you are looking down on the fork) to be standard, squared, block or custom/rounded?

Standard

Squared

Rounded

Block

Tip: What tip type do you prefer: standard (estimated 1/2" tall), FTP (estimated 1/8" tall) or Chisel (estimated 1/16" tall).

Standard Tip

FTP Tip

Chisel Tip

STEP 5

SUBMIT DIMENSIONS

When you have answered all the questions, please submit the form with your contact information via email to our sales team at info@netforks.com. A member of our team will reach out to confirm your submission and finalize any remaining information.
